

SCORE KILLED BY DYNAMITE

Terrific Explosion Occurs in a Stone Quarry.

BODIES TERRIBLY MUTILATED

Hurled Hundreds of Feet by the Concussion and So Badly Mangled as to Be Almost Beyond Recognition. Houses in the Vicinity Shaken and Windows Shattered and Consternation Created in Nearby Village.

Albany, N. Y., May 13.—At least twenty men were killed by a premature blast of dynamite in a stone quarry operated by the Callanan Road Improvement company near South Bethlehem, eleven miles southwest of Albany. The dead are:

John Hoyt Callanan, vice president and general manager of the company; Charles D. Callanan, a brother of the manager; Leroy McMillan, assistant superintendent; John Hendrickson, steam driller; Fred Snyder, master mechanic; James Maloney, blacksmith; William Baumes, fireman; Fred Zeppert, agent of the National Powder company, New York; twelve Italian workmen.

One thousand pounds of dynamite exploded, and the bodies of the victims were hurled hundreds of feet by the concussion and so badly mutilated as to be almost beyond recognition. As darkness was falling a wagon drew up to the engine house loaded with bodies that had been picked up back on the quarry hill. A crowd of grief-stricken relatives gathered around eager to identify the dead, only to turn away at the sickening sight.

Italians with shovels found here and there portions of bodies and brought their gruesome loads in boxes to the engine house, which served as a temporary morgue.

The Callanan Road Improvement company furnishes crushed stone for road building. The preparations for the blast had been going on for six weeks. Thirteen holes, seventy-five feet deep, had been drilled at points about twenty feet back of the face of the big quarry, and the explosion of the dynamite with which they were to be loaded was expected to displace 40,000 tons of rock.

Over 8,000 pounds of dynamite were to have been used.

The workmen had placed 500-pound charges in six of the holes and were working on the seventh when a percussion cap was prematurely discharged. A terrific explosion followed which hurled tons of rock into the air and scattered bodies of the victims in all directions.

The officers were standing nearby at the time directing the work.

Houses in the vicinity were shaken and windows shattered by the concussion and consternation reigned in the little village half a mile away.

TWENTY-THREE MEN PERISH

Bodies of Ten of Them Have Been Recovered.

Pittsburg, May 13.—Ten bodies had been recovered when the search was temporarily abandoned for the victims of Tuesday night's ferry boat accident. All day searching parties were out with grappling hooks, using boats of every description in the effort to locate the missing men. A revised list carefully gone over shows that the total death toll will be 23, instead of 20, as reported Tuesday night.

Officers have been busy looking up the owners of small craft and notifying them of regulations about overcrowding, carrying signal lights, etc. John Graham, aged father of the man who was running the boat that sank, is almost crazed with grief.

HE DID NOT WANT ANY MONEY

But State Senator Lyons Was Given One Hundred Dollars.

Madison, Wis., May 13.—State Senator Edward H. Lyons testified before the senatorial investigation committee that while he told the Republican state central committee he did not want any money, that a check was sent to him for \$100 by L. W. Thayer, treasurer of the committee. The reason for sending him the check was that he had done much work and was entitled to some reimbursement.

Witness did not support Senator Stephenson in the campaign, but said he thought it his duty to uphold the primary election law and support the nominee of the Republican party.

"I think Senator Stephenson got his election just as honestly as many other candidates," said Mr. Lyons.

WITH TAIN OF GAMBLING

Whole Commercial Life of Our Time Is Infected.

Boston, May 13.—"The Ethical Aspect of Gambling," the topic discussed at the night session in Tremont Temple of the National Episcopal congress, was apparently the most interesting of any subject taken up. Rev. St. Clair Hestor of New York was especially outspoken on the subject and during his address referred to the efforts which had been made in his own state to suppress betting on horse races. He thought that it would be no great exaggeration to say that the whole commercial life of our time is infected with the taint of gambling.

"It, rather than Standard Oil," he said, "is the giant octopus whose tentacles are fastened on every trade and industry."

Sereno S. Pratt, secretary of the chamber of commerce of the state of New York, scathingly arraigned gambling in securities and the necessities of life, and this was discussed also by Rev. Flavel S. Luther, I. L. D., president of Trinity college, Hartford, Conn., and Dr. F. E. J. Woodbridge, professor of philosophy in Columbia university.

PORTO RICANS BECOME EXCITED

President Taft's Recent Message the Cause.

San Juan, P. R., May 13.—Only excerpts from President Taft's message on Porto Rico have been received here. These have caused excited comment, mostly of an unfavorable nature. President Taft's attitude has caused general disappointment among politicians of all parties. Governor Post said it would be disappointing to political circles, but he anticipated no trouble. There is no unrest and business interests are not affected.

Dr. J. C. Barbosa, leader of the Republican party, who is serving his third term in the executive council, said:

"The president's message has not surprised me; I expected it. It is unjust in treating all Porto Ricans alike. Necessarily, we shall all have to suffer the consequences for the errors committed by half a dozen politicians who obtained their influence and prestige through open support of the Americans controlling the insular government. The Republicans, labor party, independents and business men, who have no direct representation in the house of delegates and who constitute the majority in the island, have been represented by a handful of men, who are anti-American and who do not think or act as we do."

Louis Munos Rivera, leader of the Unionist party and a member of the delegation which went to Washington to discuss with the state department Porto Rican legislation, was bitter in his denunciation of President Taft's message.

Former Sultan Gives Up Funds.

London, May 13.—A special dispatch from Saloniki says that Talaat Bey, vice president of the chamber of deputies, who was sent there to arrange with Abdul Hamid for the transference of his fortunes to the government, succeeded in obtaining the signature of the former sultan for the withdrawal of funds from foreign banks.

FAMOUS HOTEL DESTROYED

Place Where Nathaniel Hawthorne Died Burned Down.

Plymouth, N. H., May 13.—After having destroyed the Pemigewasset House, one of the most famous hostleries in the White mountains, and the railroad station, fire jumped into the pine forest, licked up two farmhouses and is still raging in the timber land.

The loss on the hotel and other buildings is estimated at \$150,000. Nathaniel Hawthorne died in this hotel in 1864.

TO SAVE THE BRIDGE TOLL

Five Men Try to Cross River in a Boat and Three Perish.

Pittsburg, May 13.—To save 5 cents bridge toll, five foreigners who were going to Glassport in hope of finding employment attempted to cross the Monongahela river at McKeesport in a small boat, which sank as they got into midstream, drowning three of the men.

DISCUSSES THE TARIFF MEASURE

Senator Crawford Opposed to Duty on Certain Products.

IRON, OIL, LUMBER AND COAL

South Dakotan Favors Placing Them on the Free List—McCumber of North Dakota Said to Have Led Northwestern Revisionists Into a Trap Set by Aldrich—Now Find Themselves Practically Helpless.

Washington, May 13.—After several hours spent in the senate in discussing the window glass schedule of the tariff bill, Senator Aldrich asked that that paragraph be passed over. Some other sections relating to glass manufactured articles that previously had been passed over were agreed to. The senate proceeded to the consideration of passed over sections until the iron ore paragraph was reached. When Senator Crawford spoke at length upon the lack of wisdom of any tariff that encouraged the exhaustion of natural resources which could not readily be reproduced. He insisted that there should be no tariff on iron ore, oil, lumber and coal.

Early in the session Senator Paynter spoke in favor of the removal of the duty of 6 cents a pound upon leaf tobacco as a means for freeing the tobacco growers from the control of the tobacco trust.

That Senator McCumber of North Dakota led the Northwestern contingent of "progressive" revolutionists in the senate into a pitfall deliberately set by Mr. Aldrich is becoming apparent as the tariff bill progresses.

As Mr. McCumber is the only member of the finance committee from the Northwest, and was anxious to make a showing, he demanded a high duty on most of the agricultural products of his section. The astute Mr. Aldrich let him have them.

Now every time Senator Nelson or Senator Clapp or any other senator from that section starts a fight to reduce a certain schedule the Aldrich crowd promptly inquires in a mild but pointed manner if the objecting senator thinks the duties under discussion are any higher in proportion than the agricultural schedule.

This is a ploy, for the agricultural products are on a high dutiable list. They are higher than are necessary. At least, Senator Clapp thinks so, and in reply to a baiting he was receiving from the Aldrich crowd the other day he boldly declared that the duty of 30 cents on wheat is too high and could and should be reduced until it gave protection and no more. He thinks 20 cents would be adequate, and that the same is true of barley.

So, while Senator McCumber was "protecting his own section," he tied his own hands and those of a number of his colleagues who want to make a hard fight for downward revision, but are handicapped by their own schedule.

TO SETTLE THE EMERY CLAIM

Nicaraguan Commissioner Arrives in Washington.

Washington, May 13.—Pedro Gonzales of Nicaragua, a special commissioner bringing instructions for Minister Espinosa for the settlement of the long pending Emery claim, has arrived here.

It is expected that a meeting will take place promptly with counsel for the Emery company for a full consideration of the case.

Both Secretary Root and Secretary Knox have urged the Nicaraguan government to reach a basis of settlement and Mr. Knox sent to Senator Espinosa a communication generally regarded as an ultimatum. Senator Espinosa referred the matter to President Zelaya, who appointed Mr. Gonzales a special messenger with full instructions for settling the case, either by a compromise or by arbitration. There have been unofficial intimations that Gonzales' mission was simply a play for more time.

The claim arises out of the annulment by Nicaragua of a concession granted for cutting mahogany, because of an alleged violation of its provisions.

LABORER KILLS HIS WIFE

Then Ends His Own Life on Tracks of an Elevated Railroad.

Chicago, May 13.—J. B. Hinz, a laborer, shot and killed his wife after a quarrel. He then ran from the house to the surface tracks of the Metropolitan elevated railroad and lay down with his head across a rail. The first train that came along killed him.

TWO FOREIGN AMBASSADORS!

Attend Dinner in Honor of President Eliot of Harvard.

Cambridge, Mass., May 13.—The tables of the Cosmopolitan club of Harvard were graced by two foreign ambassadors, Baron Kogoro Takahira of Japan and Count Bernstorff of Germany, and Canon Hensley Henson of London, President Charles Eliot, the retiring president of Harvard, and President-elect A. Lawrence Lowell, and Bishop W. A. Lawrence of Massachusetts. Two notable incidents were remarked. The presence of the two foreign ambassadors was brought about through the desire of the emperors of their respective governments to honor President Eliot upon his retirement by the bestowal of illustrious orders.

Between the courses of the dinner, to which 130 persons sat down, the invited guests spoke. Baron Takahira stated that as Japan was regarded as a warlike country, a few remarks on peace from him would be appreciated.

Count Bernstorff's remarks were devoted largely to praise of Harvard university and President Eliot.

Professor Eugene Kuehnemann of Harvard took up the cudgels of oratory in favor of Germany's present and prospective increase in armament, afloat and ashore. He stated that it was to the interests of peace and for the retaining of culture and idealism that such a policy was intended and would be carried out.

President Eliot, the concluding speaker, discussed "Feudal and Civil Governments."

TRYING TO CONTROL THE BRITISH MARKET

Fearful Such Is the Object of American Meat Trust.

London, May 13.—Fear that the American beef trust is coiling its tentacles around the British market and also gaining control of the United Kingdom's great source of meat supply, Argentina, is expressed in a government report just made public.

The report is submitted by the departmental committee that was appointed in 1908 to investigate the meat trade at home and abroad, especially with relation to combinations among packers and shippers.

Most of the trails, the committee found, led across the Atlantic and into the United States, and especially into the United States stock yards at Chicago. Volumes of testimony were amassed with the aid of witnesses gathered from all parts of the world, and special investigators, secret and otherwise, were sent abroad to run down every feature of the inquiry upon which first hand information was desired.

And so, although representatives of the American packing houses who were examined denied any combination in the United Kingdom, the committee sets down its doubts in these words:

"It is almost incredible that Armour & Co., Swift & Co., Morris & Co. and the Hammond Beef company, the last named representing the National Packing company, should be in combination in the United States, and in competition in the United Kingdom."

The report asserts positively the belief of the committee that a beef trust exists in America and that the four Chicago companies named are its components. Also, it says, the same four companies are allied in England in such a manner that they may eventually gain absolute control of Smithfield market itself.

SHOULD BE ENCOURAGED

Playground Association Declares Baseball a Healthy Sport.

Pittsburg, May 13.—That baseball is a healthy sport for boys and should be encouraged was the decision of the Playground Association of America at the day's session of its third annual congress. It was held by some that boys were permitted to begin the game too early and by others that it took too much room on the playgrounds. "Why not play 'prisoner's base'?" asked one. Another suggested interesting the very young boys in "hide and seek," while others advocated "shinny." Many were advocates of a new national game to take the place of baseball, but the vote disclosed a large majority for the present national game.

As the discussions were in progress the echoes of youngsters playing baseball in Junction hollow were carried to the ears of the speakers, while across the green sward of Schenley park came the sounds of the workmen as they pushed ahead the work of erecting the grand stand in the new million dollar baseball park of the National league.

Athletics for girls was discussed, but occasioned no friction. Several addresses were delivered by delegates.

SPEECHES ARE VERY BRIEF

Wright Brothers Talk at Luncheon Tendered Them in New York.

New York, May 13.—The Wright brothers have left for their home in Dayton, O., after a day spent in receiving the tributes and compliments of friends and admirers here.

However much at home the brothers may be amid the perils of the upper air, they showed again that they are extremely shy as guests of honor. At the luncheon tendered by the Aero Club of America at the Lawyers' club both had reluctantly consented to be on the programme of speakers. But they appeared immensely relieved when the ordeal was over. Wilbur spoke first—three sentences that lasted less than sixty seconds by the clock. Orville followed, and his speech was just half as long.

Assailed by interviewers, Orville referred all questions to Wilbur and Wilbur then turned them over to Orville. Together they said that in

ORVILLE WRIGHT.

their opinion the use of the aeroplane for dropping bombs or explosives into a hostile army was impracticable. "The only practical use of aeroplanes in warfare will be as scouts and messengers," they said. "The 'plane must rise 1,000 or 1,500 feet above the ground in order to be safe from shell fire and at that distance you can't drop anything with accuracy from a machine moving at 40 or 50 miles an hour."

The Wrights refused an offer of \$5,000 for a single flight in connection with the celebration at the opening of the city's new Queensboro bridge in June. Their time was fully taken up with government contracts until June 28, they said.

Roosevelt's Clerk a Suicide.

Washington, May 13.—Thomas H. Netherland, who was social clerk at the White House under President Roosevelt, fearing that he would never recover from nervous prostration, committed suicide at his residence by sending a bullet through his head.

TAFT AND TRAVIS VICTORS

Defeat Their Opponents in a Close Golf Contest.

Washington, May 13.—With victory perched on his golf stick, President Taft returned from the Chevy Chase club links. Taking Walter J. Travis, former national and international champion for his partner, the president helped defeat by a score of one up, the opposing team composed during the first seven holes of play of General Clarence R. Edwards, chief of the insular bureau of the war department, and F. Oden Horstmann, crack player of the Chevy Chase club, whose place was taken after the seventh hole by Captain Archibald Butt, military aide at the White House.

Mr. Horstmann was obliged to drop out because of a wrench to his side suffered several days ago in playing a championship game.

The feature of the game was a remarkable drive made by the president, who on the eighteenth hole led with a long, straight drive to within three feet of the home green hole. The hundreds of members of the club, men and women, who were gathered around the home green broke into long applause at the president's extraordinary play. Unfortunately he fouled his put and made the hole in three.

At the seventeenth hole, the president and Mr. Travis were two up; but General Edwards and Captain Butt won the eighteenth, making the score 1 up in favor of the president and Mr. Travis. The total individual score of Mr. Travis was 74 and that of Mr. Taft 92.

The game was exciting, the two pairs at no time being far apart in their score.

SCORE KILLED BY DYNAMITE

**Terrific Explosion Occurs in a
Stone Quarry.**

BODIES TERRIBLY MUTILATED

Hurled Hundreds of Feet by the Concussion and So Badly Mangled as to Be Almost Beyond Recognition. Houses in the Vicinity Shaken and Windows Shattered and Consternation Created in Nearby Village.

Albany, N. Y., May 13.—At least twenty men were killed by a premature blast of dynamite in a stone quarry operated by the Callanan Road Improvement company near South Bethlehem, eleven miles southwest of Albany. The dead are:

John Hoyt Callanan, vice president and general manager of the company; Charles D. Callanan, a brother of the manager; Leroy McMillan, assistant superintendent; John Hendrickson, steam driller; Fred Snyder, master mechanic; James Maloney, blacksmith; William Baumes, fireman; Fred Zeppert, agent of the National Powder company, New York; twelve Italian workmen.

One thousand pounds of dynamite exploded, and the bodies of the victims were hurled hundreds of feet by the concussion and so badly mutilated as to be almost beyond recognition. As darkness was falling a wagon drew up to the engine house loaded with bodies that had been picked up back on the quarry hill. A crowd of grief-stricken relatives gathered around eager to identify the dead, only to turn away at the sickening sight. Italians with shovels found here and there portions of bodies and brought their gruesome loads in boxes to the engine house, which served as a temporary morgue.

The Callanan Road Improvement company furnishes crushed stone for road building. The preparations for the blast had been going on for six weeks. Thirteen holes, seventy-five feet deep, had been drilled at points about twenty feet back of the face of the big quarry, and the explosion of the dynamite with which they were to be loaded was expected to displace 40,000 tons of rock.

Over 8,000 pounds of dynamite were to have been used.

The workmen had placed 500-pound charges in six of the holes and were working on the seventh when a percussion cap was prematurely discharged. A terrific explosion followed which hurled tons of rock into the air and scattered bodies of the victims in all directions.

The officers were standing nearby at the time directing the work.

Houses in the vicinity were shaken and windows shattered by the concussion and consternation reigned in the little village half a mile away.

TWENTY-THREE MEN PERISH

Bodies of Ten of Them Have Been Recovered.

Pittsburg, May 13.—Ten bodies had been recovered when the search was temporarily abandoned for the victims of Tuesday night's ferry boat accident. All day searching parties were out with grappling hooks, using boats of every description in the effort to locate the missing men. A revised list carefully gone over shows that the total death list will be 23, instead of 20, as reported Tuesday night.

Officers have been busy looking up the owners of small craft and notifying them of regulations about overcrowding, carrying signal lights, etc.

John Graham, aged father of the man who was running the boat that sank, is almost crazed with grief.

HE DID NOT WANT ANY MONEY

But State Senator Lyons Was Given One Hundred Dollars.

Madison, Wis., May 13.—State Senator Edward H. Lyons testified before the senatorial investigation committee that while he told the Republican state central committee he did not want any money, that a check was sent to him for \$100 by L. W. Thayer, treasurer of the committee. The reason for sending him the check was that he had done much work and was entitled to some reimbursement.

Witness did not support Senator Stephenson in the campaign, but said he thought it his duty to uphold the primary election law and support the nominee of the Republican party.

"I think Senator Stephenson got his election just as honestly as many other candidates," said Mr. Lyons.

WITH TAIN OF GAMBLING

Whole Commercial Life of Our Time Is Infected.

Boston, May 13.—"The Ethical Aspect of Gambling," the topic discussed at the night session in Tremont Temple of the National Episcopal congress, was apparently the most interesting of any subject taken up. Rev. St. Clair Hestor of New York was especially outspoken on the subject and during his address referred to the efforts which had been made in his own state to suppress betting on horse races. He thought that it would be no great exaggeration to say that the whole commercial life of our time is infected with the taint of gambling.

"It, rather than Standard Oil," he said, "is the giant octopus whose tentacles are fastened on every trade and industry."

Sereno S. Pratt, secretary of the chamber of commerce of the state of New York, scathingly arraigned gambling in securities and the necessities of life, and this was discussed also by Rev. Flavel S. Luther, L.L. D., president of Trinity college, Hartford, Conn., and Dr. F. E. J. Woodbridge, professor of philosophy in Columbia university.

Defeat Their Opponents in a Golf Contest.

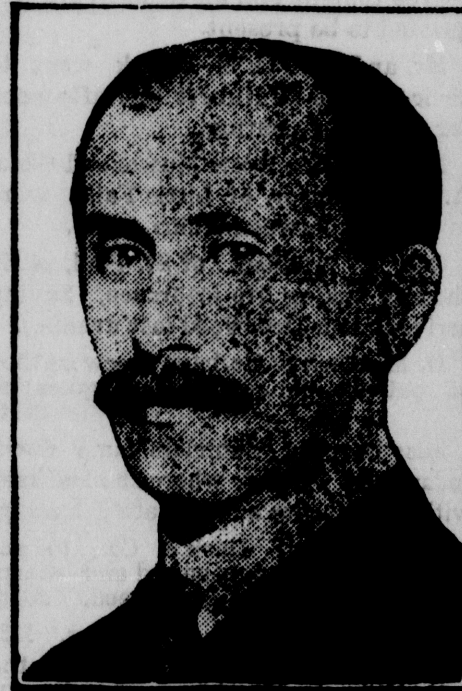

Washington, May 13.—With victory perched on his golf stick, President Taft returned from the Chevy Chase club links. Taking Walter J. Travis, former national and international champion for his partner, the president helped defeat by a score of one up, the opposing team composed during the first seven holes of play of General Clarence R. Edwards, chief of the insular bureau of the war department, and F. Oden Hortsman, crack player of the Chevy Chase club, whose place was taken after the seventh hole by Captain Archibald Butt, military aide at the White House.

Mr. Horstmann was obliged to drop out because of a wrench to his side suffered several days ago in playing a championship game.

The feature of the game was a remarkable drive made by the president, who on the eighteenth hole led with a long, straight drive to within three feet of the home green hole. The hundreds of members of the club, men and women, who were gathered around the home green broke into long applause at the president's extraordinary play. Unfortunately he fouled his put and made the hole in three.

At the seventeenth hole, the president and Mr. Travis were two up; but General Edwards and Captain Butt won the eighteenth, making the score 1 up in favor of the president and Mr. Travis. The total individual score of Mr. Travis was 74 and that of Mr. Taft 92.

The game was exciting, the two pairs at no time being far apart in their score.

ORVILLE WRIGHT,

their opinion the use of the aeroplane for dropping bombs or explosives into a hostile army was impracticable. "The only practical use of aeroplanes in warfare will be as scouts and messengers," they said. "The plane must rise 1,000 or 1,500 feet above the ground in order to be safe from shell fire and at that distance you can't drop anything with accuracy from a machine moving at 40 or 50 miles an hour."

The Wrights refused an offer of \$5,000 for a single flight in connection with the celebration at the opening of the city's new Queensboro bridge in June. Their time was fully taken up with government contracts until June 28, they said.

Roosevelt's Clerk a Suicide.

Washington, May 13.—Thomas H. Netherland, who was social clerk at the White House under President Roosevelt, fearing that he would never recover from nervous prostration, committed suicide at his residence by sending a bullet through his head.

J. W. Young, on "American Art for
Americans, and Why?" will lecture at
Elk's hall Friday night at 7 p. m. Also
special afternoon lecture for children
at 4 o'clock p. m. Friday. Admission
25 cents. Admission Friday evening

NOTED ART CRITIC TO LECTURE

J. M. Young on "American Art for
Americans, and Why?" at Elk's
Hall, Friday Night

Mr. Young, of Chicago, will deliver
an illustrated lecture Friday evening
at Elk's hall in this city. Although the
people of Brainerd cannot, many of
them, have the good fortune to see the
great art galleries of the world, they
can all have an opportunity to see the
works of our great American masters
through the enterprise of Professor P.
E. Kaiser, of St. Cloud, who with the
assistance of the advance agent, Mr.
Brewer, of New York, has been in-
strumental in inducing Mr. J. W.
Young, the noted connoisseur and critic
to lecture both in St. Cloud and Brainerd.
This lecture will be of special in-
terest to the people of Brainerd from an
educational standpoint. Mr. Young
has for many years made a special
study of American art and is today ac-
knowledgeed the representative art au-
thority of America. He says that in
our own country today we have some
of the greatest painters on earth, whose
works compare favorably with those of
the old masters. The trouble is that
we know more about the art of every
country than our own.

The slides used by Mr. Young to
illustrate his lecture are made by the
Lumiere Co., of Paris. This company
after two generations of experimenting,
have succeeded in perfecting what is
known as color photography. These
slides are made by a special process
making it possible to show the exact
color details of the subjects treated
much more clearly than is possible
with the hand painted slides. By
means of these slides Mr. Young will
show a number of the famous master-
pieces of such American landscape
artists as George Innes, Wyant, Rang-
er, Hassam, Murphy, Charles H. Davis,
Eaton, Blakeclouck and Troyan.

To hear this lecture is like paying a
visit to the great art galleries of New
York, Washington, Boston and Chicago.

It is seldom, if ever, that the people
of Brainerd will have an opportunity to
hear as noted a critic and orator as Mr.
Young, and his wonderful slides will
be remembered for a life time by all who
avail themselves of this opportunity to
see them. No one who cares to know
anything about the art of our country
can afford to miss hearing Mr. Young
lecture.

50 cents. Free exhibition of oil and
water paintings by best American
artists at Library building all day Fri-
day. It

Orne Sells sewing machines, washing
machines, rugs (all sizes), clocks and
wringers for cash or on easy payments
at the Singer store. 252tf

George West has applied to the city
council for permission to move his sa-
loon from the basement to the ground
floor of the building now occupied by
him as a restaurant. The hearing will
be at a special meeting of the city coun-
cil to be held Friday evening, May 28,
and after that time it is his intention
to discontinue the restaurant. He
states that provisions are too high to
make it profitable to serve a 25 cent
meal.

HARMONIOUS MEETING

The Meeting of the Commercial Club
Wednesday Evening was a Har-
monious and Successful One

The Commercial club held its regular
monthly meeting Wednesday evening.
Much time was spent in informal dis-
cussion of various matters of import-
ance to the city but comparatively lit-
tle definite action was taken.

A resolution was passed expressing
the appreciation of the club for the
work done by Senator Alderman and
Representatives Brown and Kling to-
ward the defeat of the tonnage tax
bill and for their work in favor of the
Torrens system.

The matter of having a spring clean-
ing up week was brought up referred
to the committee on public affairs. It
was urged that a cleaning up week be
designated and special attention during
that time given to beautifying Brainerd.

Pains of women, head pains, or any
pain stopped in 20 minutes sure, with
Dr. Shoop's Pink Pain Tablets. See
full formula on 25c box. Sold by H. P.
Dunn. tt

"So they finally froze Johnson out of
the company, did they?"

"Yes. And I never saw a hotter man
in all my life."

Now is the most opportune
time to realize your ideals
in home decoration.

During the early weeks of
the season we offer you an
unusually large assortment
from which to make your
selection, and at the same
time serve you promptly.

NOTED ART CRITIC TO LECTURE

**J. M. Young on "American Art For
Americans, and Why?" at Elk's
Hall, Friday Night**

Mr. Young, of Chicago, will deliver
an illustrated lecture Friday evening
at Elk's hall in this city. Although the
people of Brainerd cannot, many of
them, have the good fortune to see the
great art galleries of the world, they
can all have an opportunity to see the
works of our great American masters
through the enterprise of Professor P.
E. Kaiser, of St. Cloud, who with the
assistance of the advance agent, Mr.
Brewer, of New York, has been in-
strumental in inducing Mr. J. W.
Young, the noted connoisseur and critic
to lecture both in St. Cloud and Brainerd.

This lecture will be of special in-
terest to the people of Brainerd from an
educational standpoint. Mr. Young
has for many years made a special
study of American art and is today ac-
knowledgeed the representative art au-
thority of America. He says that in
our own country today we have some
of the greatest painters on earth, whose
works compare favorably with those of
the old masters. The trouble is that
we know more about the art of every
country than our own.

The slides used by Mr. Young to
illustrate his lecture are made by the
Lumiere Co., of Paris. This company
after two generations of experimenting,
have succeeded in perfecting what is
known as color photography. These
slides are made by a special process
making it possible to show the exact
color details of the subjects treated
much more clearly than is possible
with the hand painted slides. By
means of these slides Mr. Young will
show a number of the famous master-
pieces of such American landscape
artists as George Innes, Wyant, Rang-
er, Hassam, Murphy, Charles H. Davis,
Eaton, Blakeclouck and Troyan.

To hear this lecture is like paying a
visit to the great art galleries of New
York, Washington, Boston and Chicago.

It is seldom, if ever, that the people
of Brainerd will have an opportunity
to hear as noted a critic and orator as Mr.
Young, and his wonderful slides will
be remembered for a life time by all who
avail themselves of this opportunity to
see them. No one who cares to know
anything about the art of our country
can afford to miss hearing Mr. Young
lecture.

George West has applied to the city
council for permission to move his sa-
loon from the basement to the ground
floor of the building now occupied by
him as a restaurant. The hearing will
be at a special meeting of the city coun-
cil to be held Friday evening, May 28,
and after that time it is his intention
to discontinue the restaurant. He
states that provisions are too high to
make it profitable to serve a 25 cent
meal.

HARMONIOUS MEETING

**The Meeting of the Commercial Club
Wednesday Evening was a Har-
monious and Successful One**

The Commercial club held its regular
monthly meeting Wednesday evening.
Much time was spent in informal dis-
cussion of various matters of import-
ance to the city but comparatively lit-
tle definite action was taken.

A resolution was passed expressing
the appreciation of the club for the
work done by Senator Alderman and
Representatives Brown and Kling to-
ward the defeat of the tonnage tax
bill and for their work in favor of the
Torrens system.

The matter of having a spring clean-
ing up week was brought up referred
to the committee on public affairs. It
was urged that a cleaning up week be
designated and special attention during
that time given to beautifying Brainerd.

Pains of women, head pains, or any
pain stopped in 20 minutes sure, with
Dr. Shoop's Pink Pain Tablets. See
full formula on 25c box. Sold by H. P.
Dunn. tt

"So they finally froze Johnson out of
the company, did they?"

"Yes. And I never saw a hotter man
in all my life."

Now is the most opportune
time to realize your ideals
in home decoration.

During the early weeks of
the season we offer you an
unusually large assortment
from which to make your
selection, and of the same
time serve you promptly.

NEW CITIZENS STATE BANK BUILDING

NEW BANK BUILDING IS A BEAUTY

Few Cities of This Size Have Better Bank Building Than is This One

THE BUILDING ALL OCCUPIED

Only One Room is Vacant and Rent is Being Paid for That to Hold It

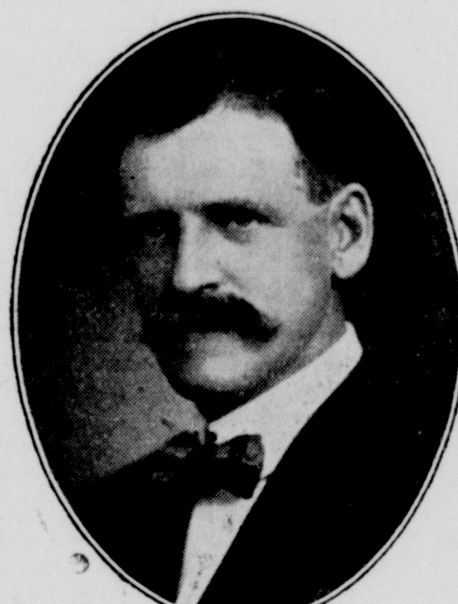

When the brick veneered building at the corner of Front and Seventh streets, occupied by the Citizens' State Bank, was destroyed by fire on the night of January 21st, 1907, it was the universal opinion of the people of Brainerd that when the bank built a home that it would be a credit not only to the bank but to the city. The faith of the people has been justified.

The first move toward the new building was the organization, in the spring of 1907, of the Parker-Dunn corporation, formed to erect and own the building, leasing the structure to the bank. The incorporators were C. N. Parker, M. T. Dunn and Henri Ribbell, and the present officers are as follows:

Pres.—M. T. Dunn.
V. P.—C. N. Parker.
Sec. and Treas.—Henri Ribbell.
It was at first the intention to build on the site of the burned structure, and plans were prepared for a building on

carrying 3,300 feet of radiation, the heating and plumbing having been done by the Slipp Gruenhagen Co., of this city, in their well known excellent manner. The building is lighted with electric lights throughout and lavatories with hot and cold water are in every suite of offices on the second floor, as well as in the stores and banking rooms on the first floor and in the basement.

The banking room is the "piece de resistance," so to speak. It is 24x70

M. T. DUNN,
President Parker-Dunn Corporation.
Owner Citizens State Bank Building.

feet in size and is finished in mahogany, with the exception of the directors' room, which is done in oak. The fixtures are of marble and mahogany. The base and trimmings of the counters are of verde antique marble and the die of Grecian skyross marble, the veinings being cut to match at all joints. The upper grill is of lacquered brass set in mahogany. The banking room is divided into a lobby, which is tile floored and fitted with handsome settees upholstered in leather and with glass topped desks for the use of customers; a private office, president's office, receiving and paying tellers' cages and bookkeepers room. All are finished in mahogany and are fitted with all the latest equipment for the banking business. The banking fixtures and the interior finish of the banking rooms were finished and put up by Marmon & Co., of St. Paul.

There are four vaults in the building, one in the basement, two on the first floor and one on the second. The basement vault will be used for the storage of books and papers needed only for occasional reference. One of the vaults in the banking room opens directly into the lobby and is largely for the use of the customers of the bank. It will contain 200 safety deposit boxes, which will be rented. The other will be the regular vault of the bank and in addition to containing the steel burglar proof money chest, will hold the books and papers of the institution. The vault on the second floor opens into the hall and safety deposit boxes will be furnished for the use of the tenants, the fire proof doors being opened in the morning and close in the evening by the man in charge of the building.

Back of the banking room is a directors' room, handsomely finished in oak and opening both into the banking room and into the vestibule leading to the second story.

The store on Seventh street, and which is occupied by Johnson's Pharmacy, is 24x90 feet in size and like all the building except the banking quarters, is finished in birch. Of the store rooms facing on Laurel street, one is occupied by A. P. Raymond, jeweler, one by Miller Bros. & Co., wholesale

and retail cigar and tobacco dealers, and the other is as yet unoccupied, though rented by a party who wishes his identity kept secret for the present.

The second story is divided into 18 handsome offices, so arranged that they may be used single or en suite. There is a lavatory in nearly every room and there are two toilet rooms on that floor. The offices are nearly all rented the following firms having already secured quarters there: M. E. Ryan, attorney; C. A. Allbright, attorney; Hartley & Allbright, insurance; J. H. Kreckelberg, real estate; L. S. Knutson, civil engineer, and R. A. Ostrom, representative of the Kelly-How-Thompson Hardware Co., of Duluth. Mr. and Mrs. Frank Copper-smith and Mrs. Julia McDonald also have rooms in the building.

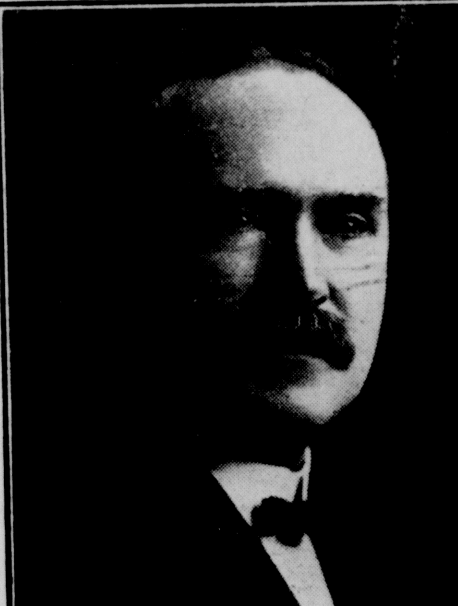

The Knights of Pythias have signified their intention of leasing the entire third story and have engaged Architect Young, of Duluth, to plan the rooms for them, that floor not yet having been finished.

An elevator well has been provided and an electric elevator will be installed as soon as suitable two-phase electric current can be secured.

Taken altogether the building is one of the handsomest in this part of the state and a source of pride to all citizens of Brainerd.

The story of the bank would not be complete without at least a brief reference to the institution which will make it its home. The Citizens' State Bank is a re-organization of the Northern Pacific bank and is rapidly forging to the front as one of the strong financial institutions of central Minnesota. The present officers are:

Pres.—M. T. Dunn.

HENRI RIBBELL,
Secretary-Treasurer Parker-Dunn Corporation.

HAVE BOUGHT OUT A. T. FISHER CO.

John Dower Lumber Company, of Wadena, Will Put in Lumber Yard at Once

WILL ERECT MODERN SHEDS

Will also Continue Fuel and Building Material Business Which They Bought

H. J. Dower, of Staples, who was here yesterday and this forenoon, left for his home in Staples today. Before leaving he informed a Dispatch representative that the John Dower Lumber Company had purchased the business and good will of the A. T. Fisher Fuel Company, of this city and that it would open a first-class lumber yard at once. The first of the material will arrive early next week. The company will erect a large lumber shed about 150 x 250 feet in size with a driveway through the center. The lumber will be piled three stories high and practically the entire stock will be kept under cover. The purchasers secured the entire stock, equipment, etc., of the A. T. Fisher company and will continue the wood, coal, lime and cement business. The John Dower Lumber company is one of the best known concerns in the central part of the state and has long had its eye on Brainerd. It believes that this is one of the coming cities of central Minnesota and decided to get in here before the field was filled. As John Dower expressed it, towns of 10,000 inhabitants with but one lumber yard are too scarce to be passed by.

John Dower, president of the company, will be here tomorrow or Saturday and the formal transfer will be made. It is understood that A. T. Fisher will remain with the new company, for the present at least.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

MUST HAVE LICENSE

Owner of One Cow or More, if Milk is Sold From Same, Must Have a State License

An item in Wednesday's paper, the gist of which was taken from the Little Falls Transcript, seems to have been erroneous. In correcting the same the Transcript says:

"Since the publication of the article in Tuesday's Transcript to the effect that owners of three or less cows are exempt from buying licenses to sell the milk or cream produced by these three cows, it has been found that an amendment to the sections published was passed by the legislature at its last session and approved April 22, 1909. The section is this year indexed under the head of state boards and commissions and was in the last index, under licenses.

"Under the General Laws of 1909, section 4 of chapter 428 amends section 1741 of the 1907 laws by striking out the last clause which states that 'Any person keeping not more than three cows and not selling any milk or cream except milk or cream produced by such three cows, shall be exempt from the provisions of this chapter.' This clause having been stricken off, any owner of any number of cows, should he or she sell milk or cream, is forced to buy a license from the dairy and food commissioner which will cost \$1 a year."

WILL EXTEND THE TIE PLANT YARDS

One Thousand Feet will be Added to West End of Yards at Preserving Plant

FOUR TRACKS ARE AFFECTED

Two Standard Gauge Tracks and Two Narrow Gauge Tracks to be Lengthened

Arrangements have been made for the increase in the storage room at the tie preserving plant in West Brainerd. This four tracks south of the main track will be extended 1,000 feet farther west than at present. The grading will be let by contract and the roadmaster's office has received no advice as to when that part of the work will be done but it is said to be the intention of the officials to complete the entire work early this summer.

Two tracks are standard gauge heads and two are narrow gauge for the electric.

Roadmaster Tyler states that he has received no notice of the rumored enlargement of the shop yards north of the foundry and is satisfied that no such action will be taken this year.

According to the latest reports it will be nearly or quite the 1st of June before the operating force arrives from Paradise and the plant here is started up.

The work of laying heavier steel between Cedar Lake and Brainerd will commence shortly, the first five cars of steel being on the way. It is expected that the work of unloading will commence on Saturday.

Won't Slight a Good Friend

"If ever I need a cough medicine again I know what to get," declares Mrs. A. L. Alley, of Beals, Me., "for, after using ten bottles of Dr. King's New Discovery, and seeing its excellent results in my own family and others, I am convinced it is the best medicine made for coughs, cold and lung trouble." Every one who tries it feels just that way. Relief is felt at once and its quick cure surprises you. For bronchitis, asthma, hemorrhage, croup, LaGrippe, sore throat, pain in chest or lungs its supreme. 50c and \$1.00. Trial bottle free. Guaranteed by H. P. Dunn. t t s w1

that ground. Because of lack of room for such a building as it was the desire of the owners to erect, and because of the belief that Laurel street was bound to become one of the leading streets of the city, it was later determined to build at the corner of Seventh and Laurel streets. A site was secured and plans prepared for the new building, a structure 50x140 feet in size, three stories high, with full basement.

The plans provided for a building of solid brick, with cut stone trimmings, plain in style of architecture, but massive and imposing. The results justified the choice of the designers, who planned a building containing a handsome banking room in the southeast corner, one store room fronting on Seventh street, and three fronting on Laurel street. The building cost, with the ground upon which it stands, between \$40,000 and \$50,000.

The contract was let July 22, 1908, to Leonard Schaf, of Wadena, who has erected the building to the perfect satisfaction of the owners. The structure is heated by a steam heating plant having a Kewaunee fire box boiler

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

MUST HAVE LICENSE

Owner of One Cow or More, if Milk is Sold From Same, Must Have a State License

An item in Wednesday's paper, the gist of which was taken from the Little Falls Transcript, seems to have been erroneous. In correcting the same the Transcript says:

"Since the publication of the article in Tuesday's Transcript to the effect that owners of three or less cows are exempt from buying licenses to sell the milk or cream produced by these three cows, it has been found that an amendment to the sections published was passed by the legislature at its last session and approved April 22, 1909. The section is this year indexed under the head of state boards and commissions and was in the last index, under licenses.

"Under the General Laws of 1909, section 4 of chapter 428 amends section 1741 of the 1907 laws by striking out the last clause which states that 'Any person keeping not more than three cows and not selling any milk or cream except milk or cream produced by such three cows, shall be exempt from the provisions of this chapter.' This clause having been stricken off, any owner of any number of cows, should he or she sell milk or cream, is forced to buy a license from the dairy and food commissioner which will cost \$1 a year."

The Say-So of the Salesman The Do-So of the Clothes

Copyright 1909
The House of Kuppenheimer
Chicago

We have an idea here that it's good business for a man to give his word only when he can live up to it.

We know that policy pays.

In this store the praise we give to a garment and the proof that it gives to you must balance up.

We do not permit extravagant claims from our salesmen, but what they do say we stand back of.

Three words tell it all; we make good.

So do the clothes we sell, the Kuppenheimer kind. And clothes from

The House of Kuppenheimer

do more than merely satisfy. They bring a genuine surprise in their exceptional style and value.

The new models, fabrics fresh from the loom, designs all crisp and new, are here and ready now. In the season's popular designs and colors, grays, greens, tans, blacks and blues.

You will find them right in price

\$18.00, \$20.00, \$25.00

H. W. LINNEMANN

WILL EXTEND THE TIE PLANT YARDS

One Thousand Feet will be Added to West End of Yards at Preserving Plant

FOUR TRACKS ARE AFFECTED

Two Standard Gauge Tracks and Two Narrow Gauge Tracks to be Lengthened

Arrangements have been made for the increase in the storage room at the tie preserving plant in West Brainerd. The four tracks south of the main track will be extended 1,000 feet farther west than at present. The grading will be let by contract and the roadmaster's office has received no advances as to when that part of the work will be done but it is said to be the intention of the officials to complete the entire work early this summer.

Two tracks are standard gauge heads and two are narrow gauge for the electric trolley.

Roadmaster Tyler states that he has received no notice of the rumored enlargement of the shop yards north of the foundry and is satisfied that no such action will be taken this year.

According to the latest reports it will be nearly or quite the 1st of June before the operating force arrives from Paradise and the plant here is started up.

The work of laying heavier steel between Cedar Lake and Brainerd will commence shortly, the first five cars of steel being on the way. It is expected that the work of unloading will commence on Saturday.

Won't Slight a Good Friend

"If ever I need a cough medicine again I know what to get," declares Mrs. A. L. Alley, of Beals, Me., "for, after using ten bottles of Dr. King's New Discovery, and seeing its excellent results in my own family and others, I am convinced it is the best medicine made for coughs, cold and lung trouble." Every one who tries it feels just that way. Relief is felt at once and its quick cure surprises you. For bronchitis, asthma, hemorrhage, croup, LaGrippe, sore throat, pain in chest or lungs its supreme. 50c and \$1.00. Trial bottle free. Guaranteed by H. P. Dunn. t t t w1

WHITE HOUSE THRIFT

Noticeable Chiefly In Reducing Number of Servants.

CASTE LINES OBLITERATED.

All Help Must Now Eat at One Table Instead of Three—Roosevelt Lunches Discontinued—Mrs. Taft Largely Responsible For the Change.

President and Mrs. Taft are going on the principle that if the government is to economize economy ought to begin at home. Therefore the running expenses of the White House are being cut down. Since March 4 savings and curtailments have been effected in various directions about the executive mansion.

Mrs. Taft is responsible in a large measure for the savings that have been brought about, for one thing when the new administration took possession of the laundresses. The number has been reduced to three. Formerly there were an engineer, an assistant engineer and a plumber about the establishment. One man is now retained to do any engineering work or plumbing work that is necessary.

Under the Roosevelt regime Pinkney, the colored steward, was an important functionary about the establishment. Now a steward is no longer kept. Pinkney has gone on the government rolls as a messenger. Mrs. Taft has obtained a first class housekeeper, Miss Jefferson. The management of the White House in large measure rests with Miss Jefferson, who attends to the buying. Mrs. Roosevelt used to do much of the buying for the establishment herself.

One of the important reforms wrought about the White House consists in reducing the number of tables at which the negro servants take their meals from three to one. It used to be before March 4 that there were three tables for the colored help. One table was for the high caste part of the force of servants. Here Charles Reader, the coachman; Pinkney, the steward, and a few of the elite of the servants assembled and dined on the fat of the land, having what the White House family had. The second table was reserved for the chef and the middle class of servants. The third table was for the laundresses and the scrub-women. Now, it appears, these distinctions have been thrust aside, and Miss Jefferson has caused all the colored help to eat at the same table.

The days of terrapin for some and no terrapin for others have gone. All the servants are treated alike. Doubtless this has caused some heartburning and dissatisfaction, but if there has been any murmuring it has been done under cover. The White House is too good a place to work and the wages too good to imperil a job by complaining about distinctions of caste at the dinner table.

These and other reforms have been effected. Of course it will not require so big a bill for supplies for the White House table in this administration as it did in the former one. One reason is that luncheon is not made as much of by President Taft as Mr. Roosevelt used to make it. Roosevelt insisted on having a lot of people at lunch. He hated to eat alone, and he liked to take advantage of lunch to extract an infinite amount of information out of a variegated assortment of people. And the amount of information he got in this way was astonishing. President Taft does not eat luncheon himself save an apple, and so the chief White House functions now are the dinners, which are quite up to the best White House standard.

If the various departments and bureaus go at the economizing business as thoroughly as the White House has it will be possible to make some reductions in appropriations.—Washington Cor. New York Globe.

WOULD GO AFTER BIG GAME

Count Boni de Castellane Wants to Hunt in the Canadian Rockies.

Montreal, May 13.—The Canadian Pacific railway has received a communication from Count Boni de Castellane, former husband of Anna Gould, asking that arrangements be made for guides, etc., for a hunting trip after big game in the Rocky mountains the end of July.

Neck Severed by Saw.

Hayward, Wis., May 13.—Engineer Haman was killed here while sawing wood. He had been operating a portable saw when the arbor to which it was attached broke while the machine was running. A piece of the saw struck Haman, completely severing his head.

Ends Life on His Claim.

Grand Forks, N. D., May 13.—Sitting in a claim shack with a bottle of whiskey on one side of him, a new Bible in the Icelandic language spread open before him on a table and a bullet hole in his temple, James Benson was found near Olga by neighbors. He had killed himself. Benson was the sole support of his parents, nearly eighty years old. His widow and five young children survive.

NO DISORDERS ARE REPORTED

First Day of Strike in France Passes Peacefully.

SERVICE IS ALMOST NORMAL

Not Necessary to Take Advantage of the Preparations Made by Business Organizations and Commercial Bodies to Carry on a Private Letter Service—Miners' Congress at Lens Fails to Vote a Sympathetic Strike.

Paris, May 13.—The first day of the postal strike passed peacefully. No disturbances were reported and the movement appears not to have gained ground. The services in Paris and throughout the provinces, with the exception of that of the railway mail clerks, are normal and as a result there has been no need to take advantage of the preparations made by the various business organizations and commercial bodies to carry on a private letter service.

The cabinet summarily dismissed 223 men under the decree issued on March 18, which authorized the discharge of strikers from the state service and made other provisions for dealing with recalcitrants. The ministers are very confident that the removal of the principal forerunners of the agitation will have the effect of crushing the movement.

The leaders of the strike experienced another discouragement in the failure of the miners' congress at Lens to vote a sympathetic strike, and up to the present none of the trades unions has made a sign of joining the movement. At the same time, the government is hurrying the preparation of its promised bill regulating the status of state employees, which will be presented to a committee of the chamber of deputies Monday.

Official figures just issued place the number of strikers in Paris at 465, out of 11,000. Owing to the defection of a majority of the mail clerks, the outgoing mails are more or less stranded. The hotbed of the previous revolt, the central telegraph bureau, is very quiet, the night shift reporting for duty as usual.

Reports from the provinces show that the movement has not made much headway, except at Havre, where a special service arranged by the chamber of commerce will be inaugurated. At Bordeaux, Lille and Chartres conditions are normal. In some cities, notably Lyons and Chambery, the hospital employees have openly expressed their disapproval of the strike.

Hoagland in the Lead.

Milwaukee, May 13.—At the end of the third night's walk and with the completion of the ninth hour of the 26-hours' walking match, W. A. Hoagland of Auburn, N. Y., leads the field of eleven pedestrians, three having dropped out. Hoagland is nine laps ahead of his nearest competitor, George Brown, also of Auburn. Hoagland is now 2 1/2 miles ahead of his previous walking record under similar conditions.

Wheat Seeding in Canada.

Winnipeg, Man., May 13.—Telegraphic dispatches received from all parts of Western Canada show that wheat seeding will be finished by the end of this week. About 5,500,000 acres will be seeded to wheat.

New Spanish Minister.

Madrid, May 13.—It is announced that the Marquis de Villalebar, first secretary of the Spanish embassy at London, will succeed Don Ramon Pina, the Spanish minister at Washington.

American Boats Confiscated.

Ogdensburg, N. Y., May 13.—A new inspector sent by the Canadian fisheries department to the St. Lawrence river in this vicinity in response to complaints that Americans have been illegally fishing and shooting in Canadian waters, made several hauls and confiscated several American boats, a large number of decoys, guns, field glasses and nets, three miles of night lines, thousands of hooks and 800 pounds of fish.

A Strong Partnership.

Said the baseball bug To the lazy germ: "We're getting close To the heated term, When the skies will shine Like a sheet of flame, And the crowd will gather To watch the game, I'll chase the players From base to base While you tempt men To a shady place Where they can gaze Till their souls entuse And yell at the umpire All they choose. We'll show the world On a summer hour How the smallest may oft Exert most power. The statesmen great And the financier Will yield to the spell As we draw near, In affairs we will be A leading firm." Said the baseball bug To the lazy germ. —Washington Star.

DEERWOOD NOTES

Navigation opened on Serpent lake Wednesday, May 12th.

Carl E. Carlson went to Brainerd Wednesday noon on business.

Mrs. R. J. Sewall spent Saturday in Duluth visiting and shopping.

O. E. Culver was a visitor at Brainerd and Aitkin on Wednesday afternoon and evening.

Miss Virgie Blackwood was called to Duluth on Tuesday on account of the illness of her sister.

G. A. Oberg came up from McGregor to spend Sunday with his parents, Mr. and Mrs. O. J. Oberg.

Michael Laney has purchased a couple of lots adjoining his present property in Archibald's addition.

Matt Crosby, of Duluth, is in Deerwood looking after the interests of Geo. H. Crosby and his associates.

L. E. Wilson has purchased a residential lot of J. F. McCarville and will, it is rumored, build thereon in the near future.

The Methodist Ladies Aid met with Mrs. Paul K. Wetzel Wednesday afternoon. All present report a very enjoyable time.

Judge J. T. Hale, of Duluth, is at his summer cottage on Reno Lake this week. He has as his guest his friend F. W. Smith, of Detroit, Mich.

C. C. Adams, who knows more and says less about the Cuyuna iron range, than the majority of Deerwoodites paid Duluth a visit on Saturday.

The rock is being hauled for the foundation of C. C. Adams' new residence, which will be erected between that of his father, Cuyler Adams, and the residence of W. C. White, on the shore of Lake Reno.

Mrs. F. Gormley and children arrived Saturday from Missoula, Mont., and will spend some time at the home of her parents, Mr. and Mrs. Harry Patterson.

Miss Margaret Torgeson was the recipient of a very pleasant surprise Sunday evening. A number of friends gathered at her home in honor of her birthday. The evening was pleasantly spent with games and dainty refreshments were served.

A. M. Peckham came from Duluth last week and is at his summer cottage on Serpent lake. Mrs. Peckham joined him here Tuesday noon.

E. T. Buxton, of Duluth, came up from Duluth Saturday to arrange for the opening of his summer home on Reno Lake. He returned the same afternoon.

A. H. Comstock, vice president of the Marshall-Wells Hardware company, of Duluth, came up Sunday accompanied by Mrs. Comstock and their daughter, Mrs. Andrews, for a short stay at the Comstock summer home on Reno Lake. Mr. Comstock brought up several pheasants and will keep them in the wood adjacent to his cottage. He received them from the Minnesota game and fish commission, which will endeavor to stock the woods of central and Northern Minnesota with them.

Mrs. B. Webster returned to Duluth Tuesday after spending a week at her summer cottage at the west end of Serpent lake.

R. C. Hodge, with the Red River Lumber Co., of Akeley, Minn., called on H. J. Hage and sold him a car load of lumber.

Mr. and Mrs. Clarence Olson, of Brainerd, came down Tuesday. He returned the same night but she remained for a more extended visit.

F. A. Glass, who has charge of the business of the Duluth Diamond Drill company on the Cuyuna range, has been in town several days this week. It is reported that two drills belonging to that company will be started in the Rabbit Lake district almost immediately.

Work has commenced on the new building which Dr. R. J. Sewall is erecting for a drug store. It is not announced as yet who will occupy it.

L. Knudson, of Brainerd, came up Wednesday afternoon and remained over to do some surveying in this section.

Cuyler Adams returned Monday from Duluth, where he spent the winter. His stenographer, Miss Jo Don, arrived also and is kept busy looking after the correspondence in his various interests.

It is rumored that a lot adjoining that of Dr. Sewall's new building has been purchased by a Duluth gentleman who will improve the same in the near future.

Deerwood's base ball team went down to defeat Sunday before the prowess of Cuyuna's world beaters. The score was 12 to 5 and the game was speedy and exciting, and for the first of the season errors were not plentiful. The Cuyuna team is now anxious to try conclusions with Brainerd's fast team.

Mr. and Mrs. Thomas Keating returned Saturday from British Columbia and other western points where they have been spending the winter, with their daughters.

Cure that leaky roof with Amatch roofing. For sale at H. J. Hage's.

Right It—

Get at the bottom of the Baking Powder Question.

Buy a can of Calumet today. Put it through the most rigid baking test that you know. If it does not fully come up to your standard; if the baking is not just as good or better—lighter, more evenly raised, more delicious and wholesome, take it back to the grocer and get your money. Calumet is the only strictly high-grade baking powder selling at a moderate cost. Don't accept a substitute. Insist upon Calumet—and get it.

Lived 152 Years.

Wm. Parr—England's oldest man—married the third time at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurluck, Ky., shows how to remain young. "I feel just like a 16-year-boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly rundown or old people. Try them. 50c at H. P. Dunn. tsw1

Elderly Beau (who is making a long call, to fair singer rapturously)—Ah, that song takes me back to the home of my childhood!

Fair Singer's Younger Sister (in a loud whisper)—Can't you sing something that will take him back to the home of his old age?

Children Who are Sickly

Mothers who value their own comfort and the welfare of their children, should never be without a box of Gray's Sweet Powders for Children, for use throughout the season. They break up colds, cure feverishness, constipation, teething disorders, headache and stomach troubles. THESE POWDERS NEVER FAIL. Sold by all drug stores, 25c. Don't accept any substitute. A trial package will be sent free to any mother who will address Allen S. Olmsted, Le Roy, N. Y.

When a girl begins to call a man by his first name it generally indicates that she has designs on his last.—Lippincott's.

The cleverest imitation of real Coffee ever yet made is Dr. Shoop's Health Coffee. It is fine in flavor—and is made in just one minute. No tedious 20 or 30 minutes boiling. Made from pure parched grains, malt, nuts, etc. Sample free. McGinn & Smith. t t t f

"Beg pardon," said the rude young man, gathering his features together again, "I simply couldn't suppress that yawn."

"Don't mention it," replied the bright girl. "By the way, that reminds me. I visited the Mammoth cave last summer."—Exchange.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve tonic adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments. Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

FULLY DRESSED FLEAS.

Pair Brought From Mexico by Ohio Man Said to Wear Clothes.

George W. Kinne of Massillon, O., a traveling man, has brought from Mexico a pair of dressed fleas he bought in a department store in the City of Mexico. The male has on a pair of trousers and a coat and the female a short skirt and bodice. Both wear little caps, on which are aligrets.

Kinne says the fleas were dressed by native Indians. They are no bigger than the average of the species known to residents of the United States.

Business Section Burned.

The number has been reduced to three. Formerly there were an engineer, an assistant engineer and a plumber about the establishment. One man is now retained to do any engineering work or plumbing work that is necessary.

Under the Roosevelt regime Pinkney, the colored steward, was an important functionary about the establishment. Now a steward is no longer kept. Pinkney has gone on the government rolls as a messenger. Mrs. Taft has obtained a first class housekeeper, Miss Jefferson. The management of the White House in large measure rests with Miss Jefferson, who attends to the buying. Mrs. Roosevelt used to do much of the buying for the establishment herself.

One of the important reforms wrought about the White House consists in reducing the number of tables at which the negro servants take their meals from three to one. It used to be before March 4 that there were three tables for the colored help. One table was for the high caste part of the force of servants. Here Charles Reader, the coachman; Pinkney, the steward, and a few of the elite of the servants assembled and dined on the fat of the land, having what the White House family had. The second table was reserved for the chief and the middle class of servants. The third table was for the laundresses and the scrub-women. Now, it appears, these distinctions have been thrust aside, and Miss Jefferson has caused all the colored help to eat at the same table.

The days of terrapin for some and no terrapin for others have gone. All the servants are treated alike. Doubtless this has caused some heartburning and dissatisfaction, but if there has been any murmuring it has been done under cover. The White House is too good a place to work and the wages too good to imperil a job by complaining about distinctions of caste at the dinner table.

These and other reforms have been effected. Of course it will not require so big a bill for supplies for the White House table in this administration as it did in the former one. One reason is that luncheon is not made as much of by President Taft as Mr. Roosevelt used to make it. Roosevelt insisted on having a lot of people at lunch. He hated to eat alone, and he liked to take advantage of lunch to extract an infinite amount of information out of a variegated assortment of people. And the amount of information he got in this way was astonishing. President Taft does not eat luncheon himself save an apple, and so the chief White House functions now are the dinners, which are quite up to the best White House standard.

If the various departments and bureaus go at the economizing business as thoroughly as the White House has it will be possible to make some reductions in appropriations.—Washington Cor. New York Globe.

WOULD GO AFTER BIG GAME

Count Boni de Castellane Wants to Hunt in the Canadian Rockies.

Montreal, May 13.—The Canadian Pacific railway has received a communication from Count Boni de Castellane, former husband of Anna Gould, asking that arrangements be made for guides, etc., for a hunting trip after big game in the Rocky mountains the end of July.

Neck Severed by Saw.

Hayward, Wis., May 13.—Eugene Haman was killed here while sawing wood. He had been operating a portable saw when the arbor to which it was attached broke while the machine was running. A piece of the saw struck Haman, completely severing his head.

Ends Life on His Claim.

Grand Forks, N. D., May 13.—Sitting in a claim shack with a bottle of whiskey on one side of him, a new Bible in the Icelandic language spread open before him on a table and a bullet hole in his temple, James Benson was found near Olga by neighbors. He had killed himself. Benson was the sole support of his parents, nearly eighty years old. His widow and five young children survive.

NO DISORDERS ARE REPORTED

First Day of Strike in France Passes Peacefully.

SERVICE IS ALMOST NORMAL

Not Necessary to Take Advantage of the Preparations Made by Business Organizations and Commercial Bodies to Carry on a Private Letter Service—Miners' Congress at Lens Fails to Vote a Sympathetic Strike.

Paris, May 13.—The first day of the postal strike passed peacefully. No disturbances were reported and the movement appears not to have gained ground. The services in Paris and throughout the provinces, with the exception of that of the railway mail clerks, are normal and as a result there has been no need to take advantage of the preparations made by the various business organizations and commercial bodies to carry on a private letter service.

The cabinet summarily dismissed 228 men under the decree issued on March 18, which authorized the discharge of strikers from the state service and made other provisions for dealing with recalcitrants. The ministers are very confident that the removal of the principal formers of the agitation will have the effect of crushing the movement.

The leaders of the strike experienced another discouragement in the failure of the miners' congress at Lens to vote a sympathetic strike, and up to the present none of the trades unions has made a sign of joining the movement. At the same time, the government is hurrying the preparation of its promised bill regulating the status of state employees, which will be presented to a committee of the chamber of deputies Monday.

Official figures just issued place the number of strikers in Paris at 465, out of 11,000. Owing to the defection of a majority of the mail clerks, the outgoing mails are more or less stranded. The hotbed of the previous revolt, the central telegraph bureau, is very quiet, the night shift reporting for duty as usual.

Reports from the provinces show that the movement has not made much headway, except at Havre, where a special service arranged by the chamber of commerce will be inaugurated. At Bordeaux, Lille and Chartres conditions are normal. In some cities, notably Lyons and Chambery, the hospital employees have openly expressed their disapproval of the strike.

Hoagland in the Lead.

Milwaukee, May 13.—At the end of the third night's walk and with the completion of the ninth hour of the 26-hours' walking match, W. A. Hoagland of Auburn, N. Y., leads the field of eleven pedestrians, three having dropped out. Hoagland is nine laps ahead of his nearest competitor, George Brown, also of Auburn. Hoagland is now 2 1/4 miles ahead of his previous walking record under similar conditions.

Wheat Seeding in Canada.

Winnipeg, Man., May 13.—Telegraphic dispatches received from all parts of Western Canada show that wheat seeding will be finished by the end of this week. About 5,500,000 acres will be seeded to wheat.

New Spanish Minister.

Madrid, May 13.—It is announced that the Marquis de Villalebar, first secretary of the Spanish embassy at London, will succeed Don Ramon Pina, the Spanish minister at Washington.

American Boats Confiscated.

Ogdensburg, N. Y., May 13.—A new inspector sent by the Canadian fisheries department to the St. Lawrence river in this vicinity in response to complaints that Americans have been illegally fishing and shooting in Canadian waters, made several hauls and confiscated several American boats, a large number of decoys, guns, field glasses and nets, three miles of night lines, thousands of hooks and 800 pounds of fish.

A Strong Partnership.

Said the baseball bug To the lazy germ: "We're getting close To the heated term. When the skies will shine Like a sheet of flame, And the crowds will gather To watch the game. I'll chase the players From base to base While you tempt men To a shady place Where they can gaze Till their souls enthrall And yell at the umpire All they choose. We'll show the world On a summer hour How the smallest may oft Exert most power. The statesmen great And the financier Will yield to the spell As we draw near. In affairs we will be A leading firm," Said the baseball bug To the lazy germ. —Washington Star.

DEERWOOD NOTES

Navigation opened on Serpent lake Wednesday, May 12th.

Carl E. Carlson went to Brainerd Wednesday noon on business.

Mrs. R. J. Sewall spent Saturday in Duluth visiting and shopping.

O. E. Culver was a visitor at Brainerd and Aitkin on Wednesday afternoon and evening.

Miss Virgie Blackwood was called to Duluth on Tuesday on account of the illness of her sister.

G. A. Oberg came up from McGregor to spend Sunday with his parents, Mr. and Mrs. O. J. Oberg.

Michael Laney has purchased a couple of lots adjoining his present property in Archibald's addition.

Matt Crosby, of Duluth, is in Deerwood looking after the interests of Geo. H. Crosby and his associates.

L. E. Wilson has purchased a resident lot of J. F. McCarville and will, it is rumored, build thereon in the near future.

The Methodist Ladies Aid met with Mrs. Paul K. Wetzel Wednesday afternoon. All present report a very enjoyable time.

Judge J. T. Hale, of Duluth, is at his summer cottage on Reno Lake this week. He has as his guest his friend F. W. Smith, of Detroit, Mich.

C. C. Adams, who knows more and says less about the Cuyuna iron range, than the majority of Deerwoodites paid Duluth a visit on Saturday.

The rock is being hauled for the foundation of C. C. Adams' new residence, which will be erected between that of his father, Cuyler Adams, and the residence of W. C. White, on the shore of Lake Reno.

Mrs. F. Gormley and children arrived Saturday from Missoula, Mont., and will spend some time at the home of her parents, Mr. and Mrs. Harry Patterson.

Miss Margaret Torgeson was the recipient of a very pleasant surprise Sunday evening. A number of friends gathered at her home in honor of her birthday. The evening was pleasantly spent with games and dainty refreshments were served.

A. M. Peckham came from Duluth last week and is at his summer cottage on Serpent lake. Mrs. Peckham joined him here Tuesday noon.

E. T. Buxton, of Duluth, came up from Duluth Saturday to arrange for the opening of his summer home on Reno Lake. He returned the same afternoon.

A. H. Comstock, vice president of the Marshall-Wells Hardware company, of Duluth, came up Sunday accompanied by Mrs. Comstock and their daughter, Mrs. Andrews, for a short stay at the Comstock summer home on Reno Lake. Mr. Comstock brought up several pheasants and will keep them in the wood adjacent to his cottage. He received them from the Minnesota game and fish commission, which will endeavor to stock the woods of central and Northern Minnesota with them.

Mrs. B. Webster returned to Duluth Tuesday after spending a week at her summer cottage at the west end of Serpent lake.

R. C. Hodge, with the Red River Lumber Co., of Akeley, Minn., called on H. J. Hage and sold him a car load of lumber.

Mr. and Mrs. Clarence Olson, of Brainerd, came down Tuesday. He returned the same night but she remained for a more extended visit.

F. A. Glass, who has charge of the business of the Duluth Diamond Drill company on the Cuyuna range, has been in town several days this week. It is reported that two drills belonging to that company will be started in the Rabbit Lake district almost immediately.

Work has commenced on the new building which Dr. R. J. Sewall is erecting for a drug store. It is not announced as yet who will occupy it.

L. Knudson, of Brainerd, came up Wednesday afternoon and remained over to do some surveying in this section.

Cuyler Adams returned Monday from Duluth, where he spent the winter. His Stenographer, Miss Jo Don, arrived also and is kept busy looking after the correspondence in his various interests.

It is rumored that a lot adjoining that of Dr. Sewall's new building has been purchased by a Duluth gentleman who will improve the same in the near future.

Deerwood's base ball team went down to defeat Sunday before the prowess of Cuyuna's world beaters. The score was 12 to 5 and the game was speedy and exciting, and for the first of the season errors were not plentiful. The Cuyuna team is now anxious to try conclusions with Brainerd's fast team.

Mr. and Mrs. Thomas Keating returned Saturday from British Columbia and other western points where they have been spending the winter, with their daughters.

Cure that leaky roof with A match roofing. For sale at H. J. Hage's.

Right It—

Get at the bottom of the Baking Powder Question.

Buy a can of Calumet today. Put it through the most rigid baking test that you know. If it does not fully come up to your standard; if the baking is not just as good or better—lighter, more evenly raised, more delicious and wholesome, take it back to the grocer and get your money. Calumet is the only strictly high-grade baking powder selling at a moderate cost. Don't accept a substitute. Insist upon Calumet—and get it.

Lived 152 Years.

Wm. Parr—England's oldest man—arrived Saturday at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurluck, Ky., shows how to remain young. "I feel just like a 16-year-boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly rundown or old people. Try them. 50c at H. P. Dunn. tsw1

Elderly Beau (who is making a long call, to fair singer rapturously)—Ah, that song takes me back to the home of my childhood!

Fair Singer's Younger Sister (In a loud whisper)—Can't you sing something that will take him back to the home of his old age?

Children Who are Sickly

Mothers who value their own comfort and the welfare of their children, should never be without a box of Gray's Sweet Powders for Children, for use throughout the season. They break up colds, cure feverishness, constipation, teething disorders, headache and stomach troubles. THESE POWDERS NEVER FAIL. Sold by all drug stores, 25c. Don't accept any substitute. A trial package will be sent free to any mother who will address Allen S. Olmsted, Le Roy, N. Y.

When a girl begins to call a man by his first name it generally indicates that she has designs on his last.—Lipincott's.

The cleverest imitation of real Coffee ever yet made is Dr. Shoop's Health Coffee. It is fine in flavor—and is made in just one minute. No tedious 20 or 30 minutes boiling. Made from pure parched grains, malt, nuts, etc. Sample free. McGinn & Smith. t t t f

"Beg pardon," said the rude young man, gathering his features together again, "I simply couldn't suppress that yawn."

"Don't mention it," replied the bright girl. "By the way, that reminds me. I visited the Mammoth cave last summer."—Exchange.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken down in health by too frequent bearing of children, also for the expectant mother, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve tonic adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments. Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

FULLY DRESSED FLEAS.

Pair Brought From Mexico by Ohio Man Said to Wear Clothes.

George W. Kinne of Massillon, O., a traveling man, has brought from Mexico a pair of dressed fleas he bought in a department store in the City of Mexico. The male has on a pair of trousers and a coat and the female a short skirt and bodice. Both wear little caps, on which are aligrets.

Kinne says the fleas were dressed by native Indians. They are no bigger than the average of the species known to residents of the United States.

Business Section Burned.

Hammond, Mo., May 13.—The entire business section of Kinderhook, Ill., with the exception of one store room, was destroyed by fire. Loss, \$60,000.

Piles

We are so certain that itching, bleeding and protruding Piles can always be relieved and absolutely cured by this ointment that we positively guarantee satisfaction or money refunded.
